What do they THINK AND FEEL?

what really counts
major preoccupations
worries & aspirations

children safety and use full for gadgets

We Can Safe Our Child Before The Danger Hazards

it is use for children mointer and safety

solution for children with hlp of gps technologic service for locatin

in this product child safety for woman safety

childrean monitoring tempeage low and hight fever child safety

motivation a smart iot dchildervice for child safety

Helth Monitoring and systeam

child safety access family members

child safety to child monitoring

What do they HEAR?

what friends say
what boss say
what influencers say

the safty measure can control with the Android or IOS Application

the most issue of child tracking system android application

this android ueses global position system gps and mobile service to find the chid location

In this devices cloud application

the system is develoed using borad

What do they SEE?

environment
friends
what the market offers

the system will collect data on the patients heartbeat oxygen saturation leval,temerature,and other parameter

geo-fencing;discrete panic button long battery life;real-time tracking

the childrean Home in outdoor for sensor

missing of the children in public places can be monitored

the most immportand reson for each child development is to determine whether a child development is on track

The childran outdoor going for monitoring senser

this child moni roring system heips monitor or track the child and their activities

it usage for bus traking child monitorng

pubil place missing child traking and usefull parantes

What do they SAY AND DO?

attitude in public
appearance
behavior towards others

This Safty Measure Need Support For Medican Care

This Device Can Use AnyWhare You Wont

We Can Find Our Child Location

We Know The Child Health Also

the device we are use full product

in this product market avaible

GPS Traking

PAIN

fears
frustrations
obstacles

this devics cannot be rural Area

The battery life for a longer time device

To implement of Iot devies which Ensures the complete solution for child safety

Very Much Cose OF Inversment

Network probleam for device

GAIN

"wants" / needs
measures of succe
obstacles

The Advantagrs of smart phone

Every should be safety children for controal

Power Eficiency Is Less

child safety and monitoring and notification

simple and use full child safety

real time is all made possible with iot enabal technology

we can communication siganal monitoring sms notification
